Why do you need PPI?

PPI provides fast, reliable and independent price information on pharmaceuticals. We offer, upon request, up-to-date and comparable price information for single products and carry out comprehensive price comparisons customised to individual needs. If requested, PPI results will include information on statutory manufacturer discounts applicable in some countries and on the reimbursement status of medicines.

Standard query	Extended query
Price information for a specific medicine	Price information for an active substance, comprising the originator medicine and all generics or biosimilar medicines
1 pharmaceutical product (brand) 1 country 1 strength (e.g. 300 mg) 1 pharmaceutical form (e.g. tablet) All pack sizes	1 active substance and 1 defined compound preparation 1 country 1 strength (e.g. 300 mg) 1 pharmaceutical form (e.g. tablet) All pack sizes

Price example for a standard query:

1 product, 2 strengths, 1 pharm. form, all pack sizes per country: € 84.- net price

Ask for our detailed cost estimate!
